BC Cup Classes and Class Combinations:

A **class** is made up of 3 or more riders. When there aren't a sufficient number of riders to complete in a class, one or more classes are combined. Where one or more **classes are combined** due to a low number of registered riders, points are allocated to each rider based on how they would place in their regular class. However, the "Award of the Day" will be awarded based on the outcome of that particular day, not based on how the rider would have been placed in their regular class.

For Example: Two Intermediate riders are grouped together with three Expert riders. The points will be given as first and second to the Intermediate riders in their class and to the first, second and third to the Expert riders in their class and the *Award of the Day* will be given by their actual order of finish for that day.

BC Cup(s) Points System:
